Subject: FM Uplift Testing - Sacred Heart ER/OR East

Gentlemen: Please find attached the FM Uplift Test Report for the ER/OR East roof. Between myself and the two employees from Thompson Engineering who performed the tests, we have either conducted or observed hundreds of uplift tests and the results of this test were the best any of us have ever seen. Standard Roofing should be very proud of this installation.

Pete: If you will please forward this to your contact at FM we should be all set with this portion of the project.

Thanks,

Dale Purvis, RRC, RRO, CDT, LEED AP
